2010 "unofficial" Petition in support of Increased Investment in Michigan's Transportation Infrastructure
Online: www.gopetition.com/online/33792.html

The undersigned supports the immediate passage of legislation to significantly increase the investment in Michigan's transportation infrastructure. Without additional revenue, Michigan's state and local road agencies will continue to delay hundreds of millions of dollars in transportation projects. Infrastructure investment should be used as a catalyst for economic expansion. A vibrant Michigan is impossible without a quality transportation system crucial in moving goods and people quickly, safely and efficiently. We support raising revenue through adjustments in vehicle registration fees, user fees on gasoline and diesel fuel, and through new funding strategies. (Only sign petition one time)
